Max Power 2005 - Birmingham (UK)  
**BBG - AudioAdvice MTX RENAULT 19 awarded «BEST ICE-CAR» during Max Power Live 2005**

UK's most spectacular Car Audio and Tuning event of the year, MAX POWER LIVE 2005, took place last weekend, July 1st to July 3rd, at the NEC in Birmingham, England.

UK distributor BBG was present with a massive MTX demo vehicle built by Audio Advice in Belfast. They transformed a Renault 19 16V into a single seat car audio thrill ride! The sound system is built around 12 of the new 2005 Thunder amps, 10 T7500 12" superwoofers, 4 Thunder Axe High End component sets and 1 Thunder Axial coax set.

The MTX Renault reflects everything MTX stands for: Fun, Design, Highest performance and Team work. The system design was created by: Phil from Audio Advice, Chris from BBG and Jacco from Mitek Europe.

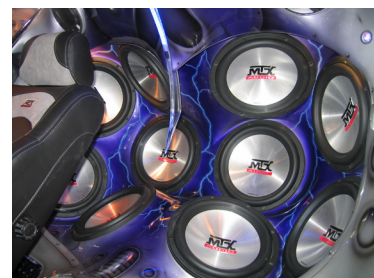

The famous R19

Faye welcomes you on board for a crazy ride

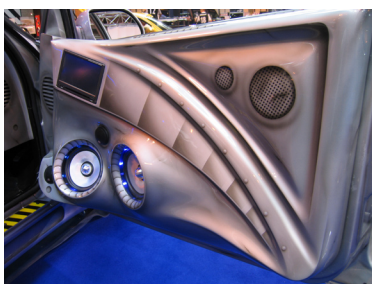

Simon made an incredible painting job !

10x T7512-44 (30cm 12"). Serious about Bass...

Tss tss ! Look at the door panel...

Very nice door panel with the new MTX TXC

The rack with the 2005 MTX Thunder amps

The entire system was installed by the Audio Advice crew and airbrushed by Simon from SM Designs. The car has a Sound Quality setting for audiophile listening and another a complete 5.1 Surround setting for movies. For the Ultimate Bass experience the third setting in the car is an everything goes Bass Demo. The car can be operated by the Headunit in the dash controlling 2 DVD players and a Hard Drive or it can be operated from outside the car through a lap top computer.

Phil (Audio Advice): «This car turned out even better than I expected»

Chris (BBG): "This car is awesome. It has it all: Looks, Sound and Power"

Max Power: "Unbelievable that a democar can actually do Music, 5.1 Surround Sound and Impressive Bass demo without switching off any amps but just by a touch of a button. This is absolutely one of the most impressive demo cars! The only car this year to deserve the title BEST ICE-CAR at MAX POWER LIVE 2005"

The Team behind the car! The Audio Advice crew, Chris (BBG on the left) and Phil (Audio Advice on the right) holding hands, Simon (airbrusher) behind Chris and Jacco (Mitek Europe) in the middle.

Faye, always around the car !

Ready to drive ? Better stay and listen music...
